Summary

iOS engineer contributing to four live photo and video apps at Kite Games Studio since July 2024. Focused on Swift, UIKit, SwiftUI, Metal editing tools, subscriptions, and app reliability. Open to full-time roles and freelance projects, remote or in Dhaka.

Experience

iOS Engineer, Kite Games Studio | Jul 2024 - present

Collaborated with product, design, and QA on requirements, UX concerns, bug triage, and feature refinement. Used R&D prototypes to evaluate quality improvements.

Beauty Editor: Blemish Remover

- Extended Metal face-editing and lighting tools on an existing team codebase; fixed multi-face undo and redo crashes.
- Shipped subscription UI and onboarding flows, and improved analytics integration.

Retouch: AI Object Remover

- Implemented a shared editing workflow from a teammate's design; built face-selection and mask-editing UI and fixed high-resolution image crashes.

Unblur: AI Photo Enhancer

- Built SwiftUI settings and subscription UI within a UIKit app; improved network recovery and prevented duplicate enhancement requests.

Time Warp Scan App

- Built the effects picker, video onboarding, subscription hand-off, and recording timer around a teammate's scan-effect engine.

Skills

App development: Swift, UIKit, SwiftUI
Graphics: Metal, Core Animation, Image editing, Masks
Subscriptions: Qonversion, Paywall UI, Premium access
Analytics: Firebase Analytics, Apple Search Ads attribution
Reliability: Crash debugging, Image memory, Network recovery
Research and quality: Prototyping, Image-quality evaluation, QA iteration
Algorithms: C++, Data structures, Competitive programming
Tools: Xcode, Git

Competitive programming

Codeforces Expert (peak 1673); 42nd at ICPC Asia Dhaka Regional 2022; 49th at ICPC Asia West Continent Final 2022.

Education

B.Sc. in Information and Communication Engineering
Noakhali Science and Technology University, Bangladesh | 2024

Languages: English, Bangla
